Journal of Biogeography

Contents

Volume 30 Issue 1 January 2003

Guest Editorial

1 J. C. Briggs: Marine centres of origin as evolutionary engines

Special Paper

19 K. A. Triantis, M. Mylonas, K. Lika and K. Vardinoyannis: A model for the species-area-habitat relationship

Reflecting on frogs and other animals

29 F. Johansson: Latitudinal shifts in body size of *Enallagma cyathigerum* (Odonata)

35 K. Summers, T. W. Cronin and T. Kennedy: Variation in spectral reflectance among populations of *Dendrobates pumilio*, the strawberry poison frog, in the Bocas del Toro Archipelago, Panama

55 J. T. Forsman and M. Mönkkönen: The role of climate in limiting European resident bird populations

71 L. P. Costa: The historical bridge between the Amazon and the Atlantic Forest of Brazil: a study of molecular phylogeography with small mammals

Special Paper

87 J. E. B. Mouw and P. B. Alaback: Putting floodplain hyperdiversity in a regional context: an assessment of terrestrial-floodplain connectivity in a montane environment

Phytogeography with a bit of latitude

105 A. T. Moles and M. Westoby: Latitude, seed predation and seed mass

129 H. Qian, J.-S. Song, P. Krestov, Q. Guo, Z. Wu, X. Shen and X. Guo: Large-scale phytogeographical patterns in East Asia in relation to latitudinal and climatic gradients

143 S. Cunningham and J. Read: Comparison of temperate and tropical rainforest tree species: growth responses to temperature

155 **Book Reviews**

Volume 30 Issue 2 February 2003

Special Issue

Biogeography of Southeast Asia

161 J. D. Holloway: An addiction to Southeast Asian biogeography

165 J. D. Holloway: Biological images of geological history: through a glass darkly or brightly face to face?

181 P. C. van Welzen, H. Turner and P. Hovenkamp: Historical biogeography of Southeast Asia and the West Pacific, or the generality of unrooted area networks as historical biogeographic hypotheses

193 J. A. N. Parnell, D. A. Simpson, J. Moat, D. W. Kirkup, P. Chantaranothai, P. C. Boyce, P. Bygrave, S. Dransfield, M. H. P. Jebb, J. Macklin, C. Meade, D. J. Middleton, A. M. Muasya, A. Prajaksood, C. A. Pendry, R. Pooma, S. Suddee and P. Wilkin: Plant collecting spread and densities: their potential impact on biogeographical studies in Thailand

211 C. H. Cannon and P. S. Manos: Phylogeography of the Southeast Asian stone oaks (*Lithocarpus*)

227 W. Mey: Insular radiation of the genus *Hydropsyche* (Insecta, Trichoptera: Hydropsychidae) Pictet, 1834 in the Philippines and its implications for the biogeography of Southeast Asia

Phytogeography: from Selkirk Island to Singapore

239 S. G. Haberle: Late quaternary vegetation dynamics and human impact on Alexander Selkirk Island, Chile
257 H. C. Humphries and P. S. Bourgeron: Environmental responses of *Pinus ponderosa* and associated species in the south-western USA
277 G. A. Jones and G. H. R. Henry: Primary plant succession on recently deglaciated terrain in the Canadian High Arctic
297 H. H. Bruun and J. Moen: Nested communities of alpine plants on isolated mountains: relative importance of colonization and extinction
305 D. H. L. Teo, H. T. W. Tan, R. T. Corlett, C. M. Wong and S. K. Y. Lum: Continental rain forest fragments in Singapore resist invasion by exotic plants

311 **Book Reviews**

Volume 30 Issue 3 March 2003

Guest Report

315 R. J. Whittaker and D. F. Sax: A 21st century Pangea? The emergence of a new international forum for Biogeographers

Guest Editorial

319 M. G. P. Van Veller, D. R. Brooks and M. Zandee: Cladistic and phylogenetic biogeography: the art and the science of discovery

On aspects of theory

331 S. Meiri and T. Dayan: On the validity of Bergmann's rule
353 T. D. Drezner: Revisiting Bergmann's rule for saguaros (*Carnegiea gigantea* (Engelm.) Britt. and Rose): stem diameter patterns over space
361 T. M. Doan: A south-to-north biogeographic hypothesis for Andean speciation: evidence from the lizard genus *Proctoporus* (Reptilia, Gymnophthalmidae)
375 L. D. Habib, Y. F. Wiersma and T. D. Nudds: Effects of errors in range maps on estimates of historical species richness of mammals in Canadian national parks

Special Paper

381 J. C. Briggs: The biogeographic and tectonic history of India

From fossil wood to primeval forest via waterfowl

389 M. Philippe, G. Cuny, M. Bamford, E. Jaillard, G. Barale, B. Gomez, M. Ouaja, F. Thévenard, M. Thiébaut and P. Von Sengbusch: The palaeoxylological record of *Metapodocarpoxylon libanoticum* (Edwards) Dupéron-Laudoueneix et Pons and the Gondwana Late Jurassic–Early Cretaceous continental biogeography
401 T. Dirnböck, S. Dullinger and G. Grabherr: A regional impact assessment of climate and land-use change on alpine vegetation
419 W. L. Strong and L. V. Hills: Post-Hypsithermal plant disjunctions in western Alberta, Canada
431 G. Brehm and K. Fiedler: Faunal composition of geometrid moths changes with altitude in an Andean montane rain forest
441 M. L. Mallory, L. A. Venier and D. McKenney: Winter weather and waterfowl surveys in north-western Ontario, Canada
449 O. R. Rojas-Soto, O. Alcántara-Ayala and A. G. Navarro: Regionalization of the avifauna of the Baja California Peninsula, Mexico: a parsimony analysis of endemicity and distributional modelling approach
463 R. Kowalczyk, B. Jędrzejewska and A. Zalewski: Annual and circadian activity patterns of badgers (*Meles meles*) in Białowieża Primeval Forest (eastern Poland) compared with other Palaearctic populations

Correspondence

473 J. E. Dobson: Independent corroboration of a previously proposed Palaeozoic link between eastern Australia and eastern North America

473 Comment in response to Professor Dobson's Letter

Volume 30 Issue 4 April 2003

Guest Editorial

475 P. J. D. Lambshead and G. Boucher: Marine nematode deep-sea biodiversity – hyperdiverse or hype?

Plant systems

487 A. Hampe: Large-scale geographical trends in fruit traits of vertebrate-dispersed temperate plants

497 J. T. Hunter: Persistence on inselbergs: the role of obligate seeders and resprouters

511 S. W. Laffan and M. D. Crisp: Assessing endemism at multiple spatial scales, with an example from the Australian vascular flora

521 W. W. Oswald, P. M. Anderson, L. B. Brubaker, F. S. Hu and D. R. Engstrom: Representation of tundra vegetation by pollen in lake sediments of northern Alaska

537 C. Lavoie, M. Jean, F. Delisle and G. Létourneau: Exotic plant species of the St Lawrence River wetlands: a spatial and historical analysis

The Isthmus of Kra

551 D. S. Woodruff: Neogene marine transgressions, palaeogeography and biogeographic transitions on the Thai–Malay Peninsula

569 J. B. Hughes, P. D. Round and D. S. Woodruff: The Indochinese–Sundaic faunal transition at the Isthmus of Kra: an analysis of resident forest bird species distributions

Animal landscapes: presence and absence

581 B. A. Reutter, V. Helfer, A. H. Hirzel and P. Vogel: Modelling habitat-suitability using museum collections: an example with three sympatric *Apodemus* species from the Alps

591 R. P. Anderson: Real vs. artefactual absences in species distributions: tests for *Oryzomys albigularis* (Rodentia: Muridae) in Venezuela

607 D. W. Macdonald and S. Rushton: Modelling space use and dispersal of mammals in real landscapes: a tool for conservation

621 J. L. Tellería, R. Baquero and T. Santos: Effects of forest fragmentation on European birds: implications of regional differences in species richness

629 **Book Reviews**

Volume 30 Issue 5 May 2003

Guest Editorial

633 A. MacDougall: Did Native Americans influence the northward migration of plants during the Holocene?

Special Paper

649 W. A. Weber: The Middle Asian Element in the Southern Rocky Mountain Flora of the western United States: a critical biogeographical review

Animals: small and large from coasts to cattle

687 A. M. M. Richardson, R. Swain and C. McCoull: What limits the distributions of coastally restricted terrestrial invertebrates? The case of coastal landhoppers (Crustacea: Amphipoda: Talitridae)in southern Tasmania

697 W. N. Camargo, J. S. Ely and P. Sorgeloos: Morphometric characterization of thalassohaline *Artemia franciscana* populations from the Colombian Caribbean

703 R. M. McDowall: Hawaiian biogeography and the islands' freshwater fish fauna

711 P. S. Levin: Regional differences in responses of chinook salmon populations to large-scale climatic patterns

719 M. D. Eyre, M. L. Luff, J. R. Staley and M. G. Telfer: The relationship between British ground beetles (Coleoptera,Carabidae) and land cover

731 N. R. Andrew, L. Rodgerson and M. Dunlop: Variation in invertebrate–bryophyte community structure at different spatial scales along altitudinal gradients

747 D. W. Zeh, J. A. Zeh and M. M. Bonilla: Phylogeography of the giant harlequin beetle (*Acrocinus longimanus*)

755 D. Ontiveros and J. M. Pleguezuelos: Influence of climate on Bonelli's eagle' s (*Hieraaetus fasciatus* V.1822) breeding success through the Western Mediterranean

761 M. Clavero, J. Prenda and M. Delibes: Trophic diversity of the otter (*Lutra lutra* L.)in temperate and Mediterranean freshwater habitats

771 P. Bover and J. A. Alcover: Understanding Late Quaternary extinctions: the case of *Myotragus balearicus* (Bate, 1909)

783 B. R. Sharp and R. J. Whittaker: The irreversible cattle-driven transformation of a seasonally flooded Australian savanna

803 **Book Reviews**

Volume 30 Issue 6 June 2003

Guest Editorial

805 R. W. Sutherst: Prediction of species geographical ranges

817 M. J. Samways: Critical response

Theoretical concerns

819 D. R. Brooks and M. G. P. van Veller: Critique of parsimony analysis of endemicity as a method of historical biogeography

827 E. Tjørve: Shapes and functions of species–area curves: a review of possible models

837 R. Poulin and D. Mouillot: Host introductions and the geography of parasite taxonomic diversity

From termite diversity to mammal diversity

847 R. G. Davies, P. Eggleton, D. T. Jones, F. J. Gathorne-Hardy and L. M. Hernández: Evolution of termite functional diversity: analysis and synthesis of local ecological and regional influences on local species richness

879 U. Brose: Island biogeography of temporary wetland carabid beetle communities

889 J. Krauss, I. Steffan-Dewenter and T. Tscharntke: How does landscape context contribute to effects of habitat fragmentation on diversity and population density of butterflies?

901 D. Bonte, P. Criel, I. Van Thournout and J.-P. Maelfait: Regional and local variation of spider assemblages (Araneae) from coastal grey dunes along the North Sea

913 D. Zacherl, S. D. Gaines and S. I. Lonhart: The limits to biogeographical distributions: insights from the northward range extension of the marine snail, *Kelletia kelletii* (Forbes, 1852)

925 L. Joseph, T. Wilke and D. Alpers: Independent evolution of migration on the South American landscape in a long-distance temperate-tropical migratory bird, Swainson's flycatcher (*Myiarchus swainsoni*)

939 R. Real, A. Márcia Barbosa, D. Porras, M. S. Kin, A. L. Márquez, J. C. Guerrero, L. Javier Palomo, E. R. Justo and J. Mario Vargas: Relative importance of environment, human activity and spatial situation in determining the distribution of terrestrial mammal diversity in Argentina

949 C. Pertoldi, L. A. Bach, A. B. Madsen, E. Randi and V. Loeschcke: Morphological variability and developmental instability in subpopulations of the Eurasian badger (*Meles meles*) in Denmark

Correspondence

959 M. C. Ebach and C. J. Humphries: Ontology of biogeography

963 **Book Reviews**

Volume 30 Issue 7 July 2003

Phytogeographical patterns

965 H. Groth, M. Lindner, R. Wilson, F. A. Hartmann, M. Schmull, S. R. Gradstein and J. Heinrichs: Biogeography of *Plagiochila* (Hepaticae): natural species groups span several floristic kingdoms

979 L. Wanntorp and H.-E. Wanntorp: The biogeography of *Gunnera* L.: vicariance and dispersal

989 P. Y. Ladiges, F. Udovicic and G. Nelson: Australian biogeographical connections and the phylogeny of large genera in the plant family Myrtaceae

999 M. Sawada, A. E. Viau and K. Gajewski: The biogeography of aquatic macrophytes in North America since the Last Glacial Maximum

1019 T. Korvenpää, M. von Numers and S. Hinneri: A mesoscale analysis of floristic patterns in the south-west Finnish Archipelago

1033 F. Delisle, C. Lavoie, M. Jean and D. Lachance: Reconstructing the spread of invasive plants: taking into account biases associated with herbarium specimens

1043 F. Gerhardt and S. K. Collinge: Exotic plant invasions of vernal pools in the Central Valley of California, USA

Forests and trees

1053 G. M. Foody and M. E. J. Cutler: Tree biodiversity in protected and logged Bornean tropical rain forests and its measurement by satellite remote sensing

1067 J.-P. Puyravaud, C. Dufour and S. Aravajy: Rain forest expansion mediated by successional processes in vegetation thickets in the Western Ghats of India

1081 S. P. Norman and A. H. Taylor: Tropical and north Pacific teleconnections influence fire regimes in pine-dominated forests of north-eastern California, USA

1093 D. McKenzie, D. W. Peterson, D. L. Peterson and P. E. Thornton: Climatic and biophysical controls on conifer species distributions in mountain forests of Washington State, USA

1109 D. K. Swanson: A comparison of taiga flora in north-eastern Russia and Alaska/Yukon

1123 **Book Reviews**

Volume 30 Issue 8 August 2003

Fish and fowl to the fore

1125 P. Neige: Spatial patterns of disparity and diversity of the Recent cuttlefishes (Cephalopoda) across the Old World

1139 P. B. Berendzen, A. M. Simons and R. M. Wood: Phylogeography of the northern hogsucker, *Hypentelium nigricans* (Teleostei: Cypriniformes): genetic evidence for the existence of the ancient Teays River

1153 K. F. Smith and S. D. Gaines: Rapoport's bathymetric rule and the latitudinal species diversity gradient for Northeast Pacific fishes and Northwest Atlantic gastropods: evidence against a causal link

1161 L. A. Rocha: Patterns of distribution and processes of speciation in Brazilian reef fishes

1173 S. V. Drovetski: Plio-Pleistocene climatic oscilations, Holarctic biogeography and speciation in an avian subfamily

1183 J. Jokimäki and M.-L. Kaisanlahti-Jokimäki: Spatial similarity of urban bird communities: a multiscale approach
1195 D. Storch, M. Konvicka, J. Benes, J. Martinková and K. J. Gaston: Distribution patterns in butterflies and birds of the Czech Republic: separating effects of habitat and geographical position

From parasites to patches, ticks to topography

1207 N. Wilson and L. A. Durden: Ectoparasites of terrestrial vertebrates inhabiting the Georgia Barrier Islands, USA: an inventory and preliminary biogeographical analysis
1221 J. M. Olwoch, C. J. de W. Rautenbach, B. F. N. Erasmus, F. A. Engelbrecht and A. S. van Jaarsveld: Simulating tick distributions over sub-Saharan Africa: the use of observed and simulated climate surfaces
1233 A. Guisan and U. Hofer: Predicting reptile distributions at the mesoscale: relation to climate and topography
1245 E. Meijaard: Mammals of south-east Asian islands and their Late Pleistocene environments
1259 R. K. Swihart, T. C. Atwood, J. R. Goheen, D. M. Scheiman, K. E. Munroe and T. M. Gehring: Patch occupancy of North American mammals: is patchiness in the eye of the beholder?

1281 **Book Reviews**

1283 **Announcement**

Volume 30 Issue 9 September 2003

Guest Editorial

1285 M. C. Ebach, C. J. Humphries and D. M. Williams: Phylogenetic biogeography deconstructed

Regional biogeographies

1297 T. W. Pietsch, V. V. Bogatov, K. Amaoka, Y. N. Zhuravlev, V. Y. Barkalov, S. Gage, H. Takahashi, A. S. Lelej, S. Y. Storozhenko, N. Minakawa, D. J. Bennett, T. R. Anderson, M. Ôhara, L. A. Prozorova, Y. Kuwahara, S. K. Kholin, M. Yabe, D. E. Stevenson and E. L. MacDonald: Biodiversity and biogeography of the islands of the Kuril Archipelago
1311 N. Kingston, S. Waldren and U. Bradley: The phytogeographical affinities of the Pitcairn Islands – a model for south-eastern Polynesia?
1329 L. Zhang and R. T. Corlett: Phytogeography of Hong Kong bryophytes
1339 T. Schils and E. Coppejans: Phytogeography of upwelling areas in the Arabian Sea

Special Paper

1357 C. Cristoffer and C. A. Peres: Elephants versus butterflies: the ecological role of large herbivores in the evolutionary history of two tropical worlds

Remnants and disturbances

1381 B. S. van Gemerden, H. Olff, M. P. E. Parren and F. Bongers: The pristine rain forest? Remnants of historical human impacts on current tree species composition and diversity
1391 J. L. Hill and P. J. Curran: Area, shape and isolation of tropical forest fragments: effects on tree species diversity and implications for conservation
1405 R. J. Fensham, R. J. Fairfax, D. W. Butler and D. M. J. S. Bowman: Effects of fire and drought in a tropical eucalypt savanna colonized by rain forest
1415 M. A. MacDonald and J. B. Kirkpatrick: Explaining bird species composition and richness in eucalypt-dominated remnants in subhumid Tasmania
1427 E. J. Southall, M. P. Dale and M. Kent: Spatial and temporal analysis of vegetation mosaics for conservation: poor fen communities in a Cornish valley mire

1445 D. Kulakowski, T. T. Veblen and P. Bebi: Effects of fire and spruce beetle outbreak legacies on the disturbance regime of a subalpine forest in Colorado

1457 **Correspondence**

Indicator plants and floristic analyses

1469 S. R. Karlsen and A. Elvebakk: A method using indicator plants to map local climatic variation in the Kangerlussuaq/Scoresby Sund area, East Greenland

1493 S. Schmidtlein and J. Ewald: Landscape patterns of indicator plants for soil acidity in the Bavarian Alps

1505 S. Maranz and Z. Wiesman: Evidence for indigenous selection and distribution of the shea tree, *Vitellaria paradoxa*, and its potential significance to prevailing parkland savanna tree patterns in sub-Saharan Africa north of the equator

1517 J. W. F. Slik, A. D. Poulsen, P. S. Ashton, C. H. Cannon, K. A. O. Eichhorn, K. Kartawinata, I. Lanniari, H. Nagamasu, M. Nakagawa, M. G. L. van Nieuwstadt, J. Payne, A. Saridan, K. Sidiyasa, R. W. Verburg, C. O. Webb and P. Wilkie: A floristic analysis of the lowland dipterocarp forests of Borneo

1533 F. Wittmann and W. J. Junk: Sapling communities in Amazonian white-water forests

Disjunction, dispersal, distance and diversification

1545 D. McCarthy: The trans-Pacific zipper effect: disjunct sister taxa and matching geological outlines that link the Pacific margins

1563 M. Spironello and D. R. Brooks: Dispersal and diversification: macroevolutionary implications of the MacArthur–Wilson model, illustrated by *Simulium* (*Inseliellum*) Rubstov (Diptera: Simuliidae)

1575 K. Barrett, D. A. Wait and W. B. Anderson: Small island biogeography in the Gulf of California: lizards, the subsidized island biogeography hypothesis, and the small island effect

1583 J. L. Tellería and J. Pérez-Tris: Seasonal distribution of a migratory bird: effects of local and regional resource tracking

1593 W. Wehtje: The range expansion of the great-tailed grackle (*Quiscalus mexicanus* Gmelin) in North America since 1880

1609 R. Poulin: The decay of similarity with geographical distance in parasite communities of vertebrate hosts

1617 S. Renaud and J. R. Michaux: Adaptive latitudinal trends in the mandible shape of *Apodemus* wood mice

Volume 30 Issue 11 November 2003

Special Paper

1629 J. E. Keeley and C. J. Fotheringham: Species–area relationships in Mediterranean-climate plant communities

Aspects of New World phytogeography

1659 R. P. López: Phytogeographical relations of the Andean dry valleys of Bolivia

1669 S. W. Brewer, M. Rejmánek, M. A. H. Webb and P. V. A. Fine: Relationships of phytogeography and diversity of tropical tree species with limestone topography in southern Belize

1689 J. H. D. Wolf and A. Flamenco-S: Patterns in species richness and distribution of vascular epiphytes in Chiapas, Mexico

1709 H. Asselin, S. Payette, M.-J. Fortin and S. Vallée: The northern limit of *Pinus banksiana* Lamb. in Canada: explaining the difference between the eastern and western distributions

Special Paper

1719 S. Reddy and L. M. Dávalos: Geographical sampling bias and its implications for conservation priorities in Africa

Plants – 'Downunder'

1729 L. R. Perrie, P. J. Brownsey, P. J. Lockhart, E. A. Brown and M. F. Large: Biogeography of temperate Australasian *Polystichum* ferns as inferred from chloroplast sequence and AFLP

1737 P. B. Heenan and A. D. Mitchell: Phylogeny, biogeography and adaptive radiation of *Pachycladon* (Brassicaceae) in the mountains of South Island, New Zealand

1751 K. M. Lloyd, J. Bastow Wilson and W. G. Lee: Correlates of geographic range size in New Zealand *Chionochloa* (Poaceae) species

Special Paper

1763 J. I. House, S. Archer, D. D. Breshears, R. J. Scholes and and NCEAS Tree–Grass Interaction Participants: Conundrums in mixed woody–herbaceous plant systems

1779 **Correspondence**

1781 **Book Reviews**

1785 **Notice**

Volume 30 Issue 12 December 2003

Water, water everywhere...

1787 J. M. Waters and M. S. Roy: Marine biogeography of southern Australia: phylogeographical structure in a temperate sea-star

1797 A. R. Davis, S. K. Fyfe, X. Turon and M. J. Uriz: Size matters sometimes: wall height and the structure of subtidal benthic invertebrate assemblages in south-eastern Australia and Mediterranean Spain

1809 J. T. Carlton and A. N. Cohen: Episodic global dispersal in shallow water marine organisms: the case history of the European shore crabs *Carcinus maenas* and *C. aestuarii*

1821 O. Beauchard, J. Gagneur and S. Brosse: Macroinvertebrate richness patterns in North African streams

1835 M. D. Eyre, G. N. Foster, M. L. Luff and J. R. Staley: An investigation into the relationship between water beetle (Coleoptera) distribution and land cover in Scotland and northeast England

1851 E. Suárez-Morales: Historical biogeography and distribution of the freshwater calanoid copepods (Crustacea: Copepoda) of the Yucatan Peninsula, Mexico

1861 R. Aguilar-Aguilar, R. Contreras-Medina and G. Salgado-Maldonado: Parsimony Analysis of Endemicity (PAE) of Mexican hydrological basins based on helminth parasites of freshwater fishes

Insects: diversity and risk

1873 A. Komonen, J. Ikävalko and W. Weiying: Diversity patterns of fungivorous insects: comparison between glaciated vs. refugial boreal forests

1883 I. Sanmartín: Dispersal vs. vicariance in the Mediterranean: historical biogeography of the Palearctic Pachydeminae (Coleoptera, Scarabaeoidea)

1899 J. H. Speer and R. R. Jensen: A hazards approach towards modelling pandora moth risk

1907 D. Maes, M. Gilbert, N. Titeux, P. Goffart and R. L. H. Dennis: Prediction of butterfly diversity hotspots in Belgium: a comparison of statistically focused and land use-focused models

1921 M. Pfeiffer, L. Chimedregzen and K. Ulykpan: Community organization and species richness of ants (Hymenoptera/ Formicidae) in Mongolia along an ecological gradient from steppe to Gobi desert

1937 **Book Reviews – Saharan Special**

1941 **Author Index**
